

# How to Create a Professional Page in InDesign

1. Open InDesign and go to File→New→Document→

2. In the New Document window make sure the settings are at 11.33 by 8.83 and that it is set to landscape.

3. Pick your background. You really have freedom from this point to make your professional page how you want.

example of background color.

4. Include Name.
5. Provide Contact information.
6. Include statement about your work.
7. Identify your work for example a signature or logo.
